PROFESSIONAL SUMMARY

Senior Catalog Associate with 2+ years of experience managing large-scale e-commerce operations for high-volume US retailers. Specialized in end-to-end CMS workflows and experienced as a QC User, ensuring data accuracy and catalog integrity before go-live. Skilled in web scraping, data extraction, and SOP-based order entry management. Also equipped with foundational digital marketing skills, including content marketing, SEO, and paid advertising through Google Ads and Meta Ads.

PROFESSIONAL EXPERIENCE

Senior Catalog Associate | Wissend Consultancy Services Pvt Ltd, Chennai *2024 – Present*

- Managed end-to-end CMS cataloging workflows across multiple high-volume US retail accounts, strictly following each client's dedicated SOPs, spanning 15+ product verticals including apparel & footwear, farm & ranch, sporting goods & fishing, hunting & camo, pet & livestock, tools & hardware, electrical, fencing, lawn & garden, equine supplies, animal feed, workwear & outdoor apparel, and homewares.
- Built and managed parent-child product structures (size, colour, material, style) via manual entry and bulk upload (Excel/CSV), and executed product uploads through CMS platforms with accurate data mapping and seamless catalog integration.
- Performed full product enrichment including descriptions, attributes, images, specifications, meta descriptions, and meta keywords to enhance search visibility and product discoverability, along with targeted updates based on client requirements.
- Designed and executed a structured taxonomy framework that streamlined information architecture and enhanced user navigation.
- Served as QC User, validating product listings for data accuracy and completeness before go-live to eliminate errors and ensure a seamless customer experience.
- Leveraged browser extensions and web scraping tools to accelerate product data collection and streamline catalog enrichment.
- Followed SOPs for order entry, ensuring accurate data processing and seamless integration across multiple e-commerce portals, including checking product availability across multiple retailers and marketplaces.
